

The background is a watercolor painting. The top half features a blue sky with soft, white clouds. A vibrant rainbow arches across the middle of the image, transitioning from red on the left to yellow in the center and green on the right. The bottom portion of the image shows a dark silhouette of a city skyline with several buildings of varying heights. The overall style is artistic and textured.

Booklet #3

Money, money, money

We know you've been doing a lot of surveys, and we really appreciate it! You may have noticed, however, that none of them are really asking you to share your ideas and opinions.

Your perspective is important.

How you feel about the systems around you, what's worked for you, the ways institutions have helped you or made your life harder...that is all really, really important stuff. In order to advocate for a system that actually works, we need your input.

This booklet is optional!

It's an opportunity for you to help us see what we are missing and be a part of something very big (we hope!).

Have a look at the consent info at the back if you are okay with us using your answers here to try and make the world a better place. If you would rather keep your responses private, that's okay too!

CONTACT INFO (OPTIONAL):

We can bring your knowledge and insight to a bigger audience.

Your input can help people understand what we need to do to better support everyone in our community. It can be shared with decision makers and leaders to make sure they see how policies affect real people. It can guide our future research. It can help us in our efforts to advocate for change and help us explain to people we rely on for funding exactly what is needed on the ground and why research into innovative solutions is important.

It's up to you.

Tell us what you want us to do with your answers:

- ☐ Use them to help guide FSC's future research projects
- ☐ Use them in communications to the people who fund our work
- ☐ Use them to support FSC's political/social advocacy campaigns
